

**CRANE TRAINERS** inc.  
ARTICULATED CRANE TRAINING SPECIALISTS

## **KNUCKLE BOOM TRAINING AND FAMILIARIZATION**

**Crane Trainers Inc.** offers familiarization, safety and maintenance courses on Articulated Loader Cranes across North America.

We have over 25+ years of combined experience in the operation, design, repair and training of Knuckle Boom Cranes.

Our programs focus on **SPECIFIC** crane operation and crane safety, improving productivity, resulting in **INCREASED REVENUE** by saving on unnecessary accidents, untimely repairs and improper maintenance.

**Crane Trainers Inc.** offers both one and two day courses covering a broad range of subjects including:

- Load Handling and Geometry.
- Crane Components, Safety Systems and Remote Controls.
- Load Charts, Load Diagrams and Lift Planning.
- Maintenance, Inspection and Hydraulic Safety.

Please have a look at our website for available classes or custom build your own to suit your specific needs! Certificate and wallet card are awarded upon completion of our classes. Training is available at our office site or yours with group discount rates now in effect.
